

2023 ERIAFF ANNUAL CONFERENCE

Green and Climate Transition Plans in agriculture and in agroforestry systems

ERRIAFF Working Group session of the Forested and the Bioregions

The role of regional action plans for circular bioeconomy to design resilient landscapes

Conference Venue: NOI Techpark, seminar room 4

MONDAY, 22/05/2023, 16:00 – 18:00

Central European Time (CET)

Concept: The session will present and discuss successful examples of regional actions that contribute to the design of resilient landscapes based in circular bioeconomy. The session is conceived as a workshop with active participation of all the attendees. The objective is to bring together representatives from as many regions as possible, combining regional authorities or administrations, innovation actors, local representatives, enterprises, forest owners and other stakeholders. It will be presented a collage of initiatives at different levels, working with different resources and value chains, that will allow to draw conclusions valid in different contexts.

Timetable	Sessions
16:00 – 16:03	Inspiring conference: Circular bioeconomy: a very good pole position for success stories at regional level Christian Patermann
16:30 – 16:40	Re-defining socioecological resilience – LIFE Bioreformed Neus Puy & Roser Maneja, CTFC
16:40 – 17:40	Roundtable on Resilient landscapes from a regional perspective: from science to policy Moderated by Álvaro Picardo, Forested regions WG coordinator Participants: <ul style="list-style-type: none"> • Bolzano: Marco Pietrogiovanna, Director of Forestry Planning Office, Province of Bolzano. • Catalonia: Míriam Gonzalez, Ministry of Climate Action, Food and Rural Agenda, Government of Catalonia. • East & North Finland: Laura Mäki, Senior Advisor, EU Office. • Mediterranean Model Forest Network: Riccardo Castellini, International Cooperation Head at Cesefor Foundation & member of the MMFN. • Nouvelle-Aquitaine, Auvergne-Rhône-Alpes and Pays de la Loire: Bérénice Kimpe, general project manager Xylofutur Europe • Thuringia: Sascha Lummitsch & Patrick Voigt, University of Applied Sciences Erfurt Topics: to define the perimeter of the contributes: <ul style="list-style-type: none"> • Resilience landscapes and bioeconomy • Regional experiences – pilot testing areas • Main challenges • Learned lessons.
17:40 – 18:00	Questions and discussion
18:00	Final messages Christian Patermann
